TECHNOEDGE
LEARNING SERVICES INDIA PVT LTD

AI Internship Program

About the Program

Technoedge Learning and Services is proud to launch its 2nd Batch of AI Internship Program, designed like a job and built like a career accelerator.

This program is for those who want to go beyond theory and apply AI to real-world problem solving. You will gain hands-on exposure to impactful AI tools, work on live projects, and build the exact skills companies are looking for.

This is not just an internship. It is a pathway to becoming an AI professional.

Position: AI Intern
Employment Type: Full Time Internship
Duration: Structured 6 Months
Location: Pune

Internship Structure

Phase 1 (First 3 Months): Unpaid Tenure (Foundational learning, hands-on training and more…)
Phase 2 (Next 3 Months): Paid Tenure (₹10,000/month)
Post-Internship: PPO opportunities for high performers

Overview

As an AI Intern, you will actively contribute to projects, experiment with AI tools, and build workflows that solve real business challenges. This program provides both structured learning and workplace exposure, under the guidance of experienced mentors.

Responsibilities

- Research and experiment with AI tools
- Develop, test, and document AI workflows and automations
- Assist in building AI agents for business use cases
- Support mentors in live project execution
- Analyse processes and propose AI-driven improvements
- Present findings and solutions in team reviews

Desired Skills

- Curiosity and eagerness to learn quickly
- Basic knowledge of automation, data, or AI concepts (preferred but not mandatory)

• Problem-solving mindset
• Ability to collaborate and work in teams

- Knowing Telugu/Tamil is a plus
- Having a valid passport is a plus

Key Learning Experiences

AI Tools Mastery
Wok with more than 50 AI tools across categories, starting with the most impactful ones.

Automation and Workflow
• n8n
